Section Title: Benefits Administration – *Healthcare Services*
Subject: Medical Reports
Effective Date: July 1, 2006

A. POLICY

The Workers Compensation Board (WCB) will pay healthcare professionals a fee for the completion of prescribed forms of medical or narrative reports on WCB claimants. The applicable reporting fee schedule will be established by the WCB in consultation with Doctors Manitoba or other healthcare professional organization. Both solicited and unsolicited reports may be paid for, as defined by the WCB from time to time. Medical and narrative reports that the WCB solicits from healthcare providers will be paid for according to the fee schedule and according to the following criteria.

The WCB will pay for unsolicited medical or narrative reports submitted by workers, their representatives, or their dependants during the course of a reconsideration or appeal when the reports add new and relevant information that is useful in making an adjudicative decision. The WCB will pay for such reports regardless of the outcome of that decision. The WCB will not pay for an unsolicited medical or narrative report if it is a summary or a reconstitution of existing medical evidence or contains no new information of value to the adjudicative process. The amount paid for unsolicited medical or narrative reports that meet these criteria will be the same as paid for reports directly requested by the WCB.

The WCB reserves the right to deny payment of reporting fees where the reports do not meet the WCB's quality and operating requirements.
